

BetterWOMAN®

"I was getting up three or four times every night. It started about a year ago and got worse. I went to the doctor and he did nothing... told me to do Kegel exercises, which did not help. I ordered BetterWOMAN to try out and I am so happy; it works!" – Faye, 91

Bladder control problems are natural.

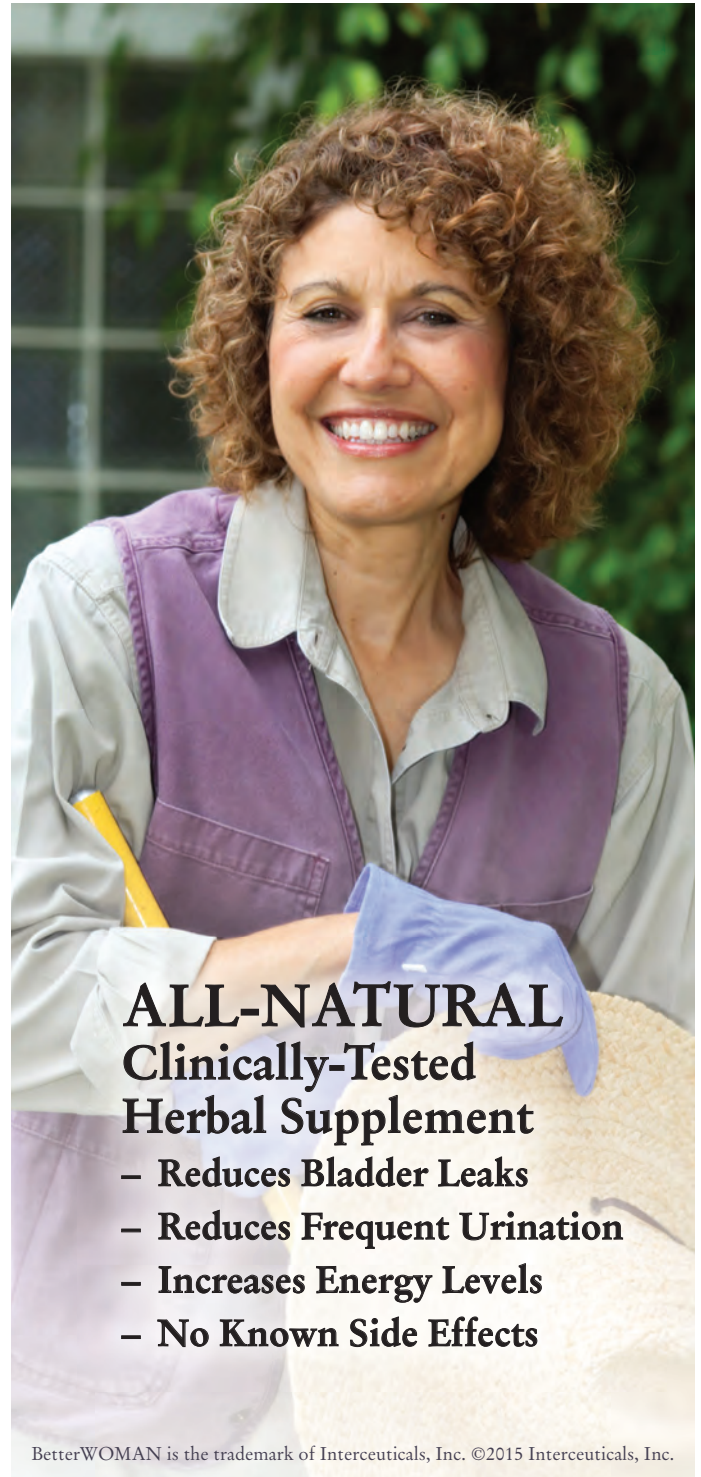

Suffering through them... isn't.

No matter what you've been told, you don't have to live with bladder control problems. While leaks, frequent trips to the bathroom and loss of bladder control can happen to women (and men) of all ages, menopausal and post-menopausal women suffer in greater numbers. During these life stages, hormonal changes could reduce muscle tone, particularly in pelvic areas.

You may have tried Kegel exercises or even surgeries to help strengthen muscles and regain bladder control. But if you're tired of the mixed results of these techniques, it's time to give BetterWOMAN a try.

What is BetterWOMAN?

BetterWOMAN is a safe, effective, all-natural blend of 20 pure Chinese herbs that helps women regain control of their bladders. This herbal supplement was created for women, by a woman. Dr. Peipei Wu Wishnow is trained in U.S. pharmaceutical practices, but she also draws on her heritage. As a third-generation Chinese medical professional, she understands the value of traditional herbal preparations and quality control issues. Dr. Wishnow's BetterWOMAN herbal supplement is based on Traditional Chinese Medicine (TCM) theory and is backed by years of scientific and clinical support data and quality assurance.

ALL-NATURAL Clinically-Tested Herbal Supplement

- Reduces Bladder Leaks
- Reduces Frequent Urination
- Increases Energy Levels
- No Known Side Effects

BetterWOMAN is the trademark of Interceuticals, Inc. ©2015 Interceuticals, Inc.

"I had to go to the bathroom every 15 minutes. Now I can last two hours with no problem. I would not have my current job as a receptionist if not for BetterWOMAN." – Beth, 44

What Results Should I Expect?

- Reduced leaks
- Reduced feelings of urgency
- Reduced number of bathroom trips
- Reduced menopausal symptoms

After just three to four months, users also reported increased energy levels, increased mental clarity, increased libido and increased vaginal lubrication.

How Do I Know BetterWOMAN Really Works?

We have thousands of satisfied customers who rave about how BetterWOMAN has changed their lives, helping to free them from bladder control problems, regain their dignity, and return them to their full and renewed lives. BetterWOMAN has also been clinically tested.

In three studies of women of all ages, who suffered from leaks brought on by laughing or sneezing, frequent urination or urgency, over 75 percent of the participants noticed marked improvement in their bladder control issues after using BetterWOMAN for just two months.

Regain Bladder Control

Without the Side Effects of Expensive Medications

Unlike Western medicine, which often requires you to take different medications for each varying symptom, Traditional Chinese Medicine (TCM) takes a broader, more gentle approach. We focus on promoting overall health and well-being to increase your bladder control. As a result, you will also notice increased energy levels and mental clarity, and reduced menopausal symptoms.

We know that bladder issues are often a natural part of aging, rather than a disease. Using the principles of TCM theory, BetterWOMAN strengthens your muscles by enhancing blood circulation, modulating neuromuscular functions, and balancing hormones naturally. By doing so, we ensure that women have the strong muscle tone needed to enhance bladder control.

And because BetterWOMAN uses proven natural ingredients, there are no known side effects like those accompanying many prescription incontinence treatments. In recent studies of men and women using common prescription incontinence medicines, researchers observed that some participants suffered from severe dry mouth, constipation, blurred vision, and even memory loss. With BetterWOMAN, there are no such worries.

COMPANY PHILOSOPHY

Interceuticals is dedicated to bridging the gap between Eastern healing culture and Western scientific methods to enhance your health naturally.

Peipei Wu Wishnow, PhD, founder.

“I used to spend \$100 a month on my bladder control solutions. BetterWOMAN has helped me to cut down the cost to about \$1.00 a day.” – Joyce, 80

Suggested Use

Each bottle of BetterWOMAN contains 40 capsules. Take one capsule after breakfast and one after dinner. Dr. Wishnow recommends a three-bottle minimum commitment to achieve better bladder health. Take a three-day break between each bottle. Continue using thereafter for ongoing improvement and maintenance. For faster results, take two capsules twice a day.

Safety Data

The pure Chinese herbs in BetterWOMAN have a long history of safe and effective use. BetterWOMAN does not contain hormones or stimulants. No heavy metal contamination. Manufactured in the United States under cGMP standards.

Refund Policy

We provide a 120-day refund policy to our first-time customers on any unopened bottles.
